Interim Manager / Crisis Manager
REHAKI.COM

Continuous Improvement

Effective processes in the companies

- 19 years of experience

- 19 countries

- Automotive, Packaging, Service, Production companies

- 1-12 months projects

- Projects to build the company culture and deliver savings

- Crisis / Interim projects to deliver to customers

- Lean audits

- Trainings of Lean Six Sigma tools

- Workshops

- Coach / Mentor to management members

Why LEAN / Interim with me

Key Achievements:

- **LEAN Implementation:** Successful projects improving efficiency and reducing costs, such as increasing OEE by 15% and avoiding a €2 million investment in new machinery
- **Project Successes:** Achieved up to 78% increase in productivity and up to 80% reduction in scrap rates for automotive suppliers

Reasons to Collaborate:

- **Proven Expertise:** Over 19 years of experience in continuous improvement and LEAN methodologies across multiple industries, including automotive and packaging
- **Problem Solving:** Specialized in stabilizing operations, improving communication flow and resolving quality control issues

Identified Challenges:

- Frequent supply chain disruptions and logistical challenges.
- Inconsistent quality control, leading to customer dissatisfaction.
- Inefficient meetings and poor internal communication and delegation
- High employee turnover, inefficient level of training

Why LEAN / Interim with me

EXPERTISE

I am a professional with experience in Lean tools, DMAIC, value stream mapping and daily continuous improvement

EXPERIENCE

In 19 years in continuous improvement, I have been responsible for plants from Turkey to England

I also have experience in various industries such as automotive and packaging

I've worked with companies with 10 employees up to 1100

INTUITION

I can help your company identify the key areas where it needs to improve quickly and we can also focus on long-term activities together

COMMON SENSE

I strongly believe in the value of daily continuous improvement (CI) for each of us

I'm a big fan of common sense and Pareto prioritization

References (45+)

Ivan has a winning attitude and he has been able to improve not only OTIF, but also OEE and quality. He knows his lean tools, how to set them up, train and implement at the client. He is fast in his thinking thus patient when training and coaching leaders. A very competent consultant.

valcon Morten Just Blangsted, Partner (Valcon, 2023 - 2024)

*He is a pure energy and enthusiasm.
Good member of team and part of company culture (builder).
His know-how in manufacturing is perfect and he works hard on his technical skills.
He has a clear LEAN mindset. 👍*

Jan Pleyer, Plant Manager (Auria Solutions, 2020 - 2022)

*He is a motivated, forward thinking and also analytical Manager who has impressive knowledge in Continuous Improvement and Lean Production.
He was well respected by both, colleagues and customers. Ivan is dedicated, self-motivated, ready to deal with difficult challenges and committed to implement solutions.
His leadership and organizational skills have been an asset to my team.*

Rainer Fellenz, VP Operations (Auria Solutions, 2020 - 2022)
